

EDUCATIONAL WEBINARS LATIN AMERICA SERIES

CNS HOT TOPICS & EXPERT PERSPECTIVES

Letter of Invitation to Panelists

October 21, 2020

Dear Dr. Piedimonte,

The ISRS has launched a regionally focused educational webinar series: **CNS Hot Topics & Expert Perspectives** with the goal of fostering multidisciplinary scientific discussions addressing current treatment of Central Nervous System diseases. The Latin America region is the first area to inaugurate this initiative, which will last for 6 months and will be followed by webinar series for Asia and Europe.

Each session focuses on a different indication and features a faculty of recognized specialists in the fields of neurosurgery, radiation oncology, and medical physics who approach the same pathology by different techniques and, sometimes, diverse philosophies. The format comprises lectures from three speakers followed by comments from three panelists and Q & A with meeting attendees. The webinars occur every other Saturday morning, considering the Latin America time zone. English is the official language.

The ISRS is very enthusiastic about this initiative and would be honored to have you as a **panelist** on the session entitled **Tremor: Treatment Paradigms**. The live webinar session is scheduled for **NOV.21, 2020** from **9:00-11:30 AM** (Brasilia / Buenos Aires / Ottawa Time). At the end of the presentations, panelists will have approximately 5 minutes each to make comments and formulate questions to the speakers. Questions from the audience will be encouraged and discussed among speakers and panelists, based on their personal experience. The full program is detailed below:

Topic: Tremor: Treatment Paradigms

- DBS – 25 min
Speaker: Sean Nagel (USA)
- Radiosurgery – 25 min
Speaker: Alessandra Gorgulho (Brazil)
- HIFU – 25 min
Speaker: Nader Pouratian (USA)
- Discussion - 40 min
- Panelists:
 - Fabían Cesar Piedimonte (Argentina) – 5 min
 - José Lorenzoni (Chile) – 5 min
 - William Contreras (Colombia) – 5 min
- Moderator: Alessandra Gorgulho, MD, MSc (Brazil)

Please maintain your presentation within the allotted time to open up enough time for discussions. The idea of these webinars is to allow interaction among peers, aiming to minimize the paucity of interactive discussion opportunities due to cancellation of congresses and scientific events this year.

Upon your response, the ISRS secretariat will contact you with details about your participation and training, using the Go To Webinar platform.

We appreciate your consideration to be part of the **Educational Webinar - Latin America Series** and look forward your response.

Sincerely,

Alessandra Gorgulho, MD
Coordinator of Educational Webinar Series
Member of Webinar Committee
Chair of Membership Committee

Ian Paddick, MSc
Chair of Webinar Committee
Past President ISRS

Laura Fariselli, MD
President of ISRS
